Flood Mitigation Assistance

Water Quantity

All States

FIGMA

Federal

The Flood Mitigation Assistance (FMA) Program provides federal assistance to States, Local and Tribal Governments to reduce or mitigate the risk of flooding by developing and implementing programs to reduce the long-term effects of community flood mitigation planning and projects. This program is intended to support projects included as part of the State’s Floodplain Management Program under Section 502 of the Flood Protection Act of 1982, as amended. This program also supports projects included in the State’s floodplain management programs that are intended to mitigate community flood mitigation projects and are part of a State’s Floodplain Management Program.

Environmental Protection Agency - Office of Grants and Assistance (OEPA) - http://www.epa.gov/oppohq/owow/oaoffice/index.htm

Eligibility:

- Community Flood Mitigation Planning
- Community Flood Mitigation Projects

Level of Assistance:

- No Federal Share

Application Submission Deadline:

- January 31, 2020

Contact Information:

- Bill Dunn, Clean Water State Revolving Fund Coordinator, Minnesota Pollution Control Agency, 1200 South Lannbooy Road South, Box 80, Faribault, MN 55021. (409) 624-0554 or bdunn@mprc.state.mn.us

Clean Water State Revolving Fund - Water Quality & Stormwater

Water Quality

MN

MN Public Facilities Authority (MPFA)

Non-Federal

The Clean Water State Revolving Fund is a low-interest rate financing program established under the Uniform Reliability Assistance Act of 1984 to support the planning and preparation for water infrastructure projects necessary for the development of water projects. Treatment requirements are determined based on the project’s purpose and the intended use of the water. This program provides funds to support the planning and preparation for water infrastructure projects necessary for the development of water projects. The program provides low-interest rate financing for the planning and preparation of water infrastructure projects necessary for the development of water projects.

Eligible applicants for this program include: Nonprofit 501(c)(3) organizations, local units of government, tribal governments, colleges and universities, state agencies, nonprofit organizations and park districts.

Eligible activities include this planning and preparation for water infrastructure projects necessary for the development of water projects. This program has a funding cap of $25,000,000 for community flood mitigation projects. Projects must be submitted to your DNR Division. Request for Proposal (RFP) due to the MPCA March 6, 2020. Projects must be submitted to your DNR Division. The maximum federal share for FMA planning sub-applicants and must submit sub-applications for planning and projects to the department. Wisconsin DNR Plans or Stephanns Plans are due to the MPCA by July 6, 2020. Water Quality Improvement Grant Program - Nine Mile Creek Conservation District

Water Quality

MN

Nine Mile Creek Watershed District

Non-Federal

The Water Quality Improvement Grant Program is a cost-share program to provide technical advice and long range planning to interested land owners. Forest stewardship plans are the outcome of the program - plans are designed to meet landowner goals while maintaining and improving forested habitat. This program is open to land owners who own land between 3 and 20 acres but could be smaller or larger depending on land goals.

- Eligible activities include:
  - Planning activities must contribute directly to the development or modification of a State Wildlife Management Plan.
  - Cost share program to provide technical advice and long range planning to interested land owners.

- Contact Information:
  - Carver County Cost-Share Program
  - 500 Lafayette Road, Box 44
  - Northfield, MN 55057-0445
  - (503) 238-8185 Maria_Sanchez@fws.gov

- Competitive State Wildlife Grants

- Eligible activities include:
  - Competitive State Wildlife Grants

- Funding deadline will be provided in February 2020

- Contact Information:

<td>Reimagining Great Lakes Water Systems</td>
<td>Water Quality</td>
<td>MN</td>
<td>Great Lakes Protection Fund</td>
<td>Non-Federal</td>
<td>The GLPF is looking for new ideas, new projects and new cohorts of people to catalyze a transition to a new era of water systems. Water systems are the foundation of our natural environment, and the operating systems that govern how water moves, what moves in water and what moves on water. Improved water systems will better solve many of the challenges we face today. Projects may include identification and adaptive management of key projects that will generate new funding for larger efforts. Being adaptable to catalyzing economic and development strategies, and providing value to the environment also means that the work will need to be in regions where the Great Lakes water systems are located.</td>
<td>The average level of Fund support is $600,000; last grant awarded has ranged from $20,000 to $1.6 million. Accept Proposals Year Round.</td>
<td><a href="http://greatlakesfundpage.org/index.html">http://greatlakesfundpage.org/index.html</a></td>
