**Item 7C. BCWMC 4-19-18**
The Clean Water State Revolving Fund, is established under the Federal Clean Water Act and state law to make loans for point source (wastewater and stormwater) collection and treatment system projects on the Clean Water Revolving Fund (CWRF) Project Priority List (PPL). Projects must receive MPCA certification and submit as-bid Project Plans to the MPCA by March 30, 2018 at 4:30pm and September 30, 2018 at 4:30pm. Applications accepted all year. Funds are limited and awarded on a first-come, first-served basis. A pre-application meeting to discuss project details is highly encouraged.

See also the Water Quality Protection Program for additional federal assistance.

The PWG program provides grants for 80% of eligible costs up to a maximum of $75,000. Projects must be listed on the MPCA’s Project Priority List (PPL). An equal cost share for public projects is required for receiving a PWG grant.

Funds are available for Conservation Corps crew labor only. For more information, contact the Conservation Corps at 651-209-9900 ext. 19 or Jim Kujawa: james.kujawa@hennepin.us.

APPLY FOR PWG FUNDING:

Visit https://conservationcorps.org/clean-water-funding

Environment Fund:

Applications accepted all year. Funds are limited and awarded on a first-come, first-served basis. Applications are accepted all year. Approximately $5-12 Million is available each funding round.

Environmental Response Fund

Brownfields

Hennepin County

Non-Federal

Funds are available for the removal of hazardous substances from contaminated sites where such substances present a threat to human health or the environment. Eligible areas include former industrial sites, former mining sites, and properties impacted by releases of hazardous substances. Projects that focus on retaining water on the land through on-site planting versus habitat restoration are preferred.

Eligible grantees include municipalities, economic development agencies, housing and community development corporations, nonprofit organizations, public companies, and private for-profit companies.

Eligible activities include: investigation, soil remediation, eco-landscape changes, ecosystem restoration, habitat improvement, and dredging of contaminated sites.

Approximately $5-12 Million is available each funding round. November 1, 2018

Brownfields

MN

Hennepin County

Non-Federal

Eligible projects include those that address contamination in hazardous properties and projects that improve water quality or prevent, establish or restore natural areas. The fund will consider projects seeking to leverage multiple funding sources where the project is led by the applicant in the applicant's management plan (e.g. comprehensive plan, watershed management plan). Eligible expenses include environmental consulting, legal, design, planning, surveying, sampling and testing fees. The following entities in Hennepin County: individual landowners, local governments, state agencies, non-profit organizations, colleges, universities, public school districts in the county, and the County and other political subdivisions of government; joint powers bodies; sanitary sewer districts.

The PWG program provides grants for 80% of eligible costs up to a maximum of $75,000. Projects must be listed on the MPCA’s Project Priority List (PPL). A project must receive MPCA certification and submit as-bid Project Plans to receive a PWG grant.

BWSR Director
The MPCA is accepting applications for water resource projects to be funded through the EDFP. Your application must be available on or before December 15, 2018. Applications must be submitted through the MPCA’s online application system. Eligibility: Only LGUs that meet the following criteria are eligible to apply for a grant: 

- LGUs have the ability to deliver staff and management to ensure implementation of a project implementation plan.
- LGUs must have the authority to generate cash revenues for the repayment of a loan.

LGUs that meet these requirements include counties, cities, townships, villages, school districts, and independent public school district organizations. Joint power organizations composed of previously mentioned entities are also eligible, but must submit a resolution from each member. This resolution must state that they will participate in the project as a loan sponsor. Local and state conservation districts and other LGUs that are not eligible to serve as a loan sponsor may partner as a project sponsor with a government entity, such as a county or watershed district, which will serve as the loan sponsor.

About $17 million in loans will be available. The maximum loan term is 10 years. Applicants may receive up to 75% grant in addition to low-interest loans.

For more information, contact Jodi Austin at 651-705-5747 or danielle.austin@state.mn.us for instructions on submitting an application.

### Contact Dakota County SWCD

Kurt Soular

644-8888 or anna@capitolregionwd.org

For questions or to submit an application, please contact Dakota County SWCD at 612-348-9352. Hennepin County provides funding and support to organizations to implement water quality improvement projects that empower residents to reduce waste, increase recycling, reduce toxicity, conserve energy and protect water quality. The Green Partners Program consists of three groups with varying levels of support and requirements.

Eligible organizations include: Non-profit organizations, universities, government agencies, individuals, for-profit businesses.

No funding guidelines given.
