Conservation Partners: Legacy Grant Program

**Mural Project**

Natural Resource/ Habitat Protection

MN

MN/ND

Non-Federal

Grant program to restore or enhance prairie, wetland, forest, or habitat for fish, game, or wildlife in Minnesota. Program provides competitive grants of up to $75,000 to nonprofit organizations, including governmental units, for projects that will provide benefits to all or part of a public park for all or part of the park for all or part of the project for all or part of the project. Eligible applicants are limited to local, regional, state, and federal non-profit organizations, including governmental units. Projects must be located within the 7-county metro area, and the total project cost cap of $75,000. Round 1: September 24, 2018

Conservation Partners: Legacy Grant Program

**Metro Projects**

Natural Resource/ Habitat Protection

MN

MN/ND

Non-Federal

Grant program to restore or enhance prairie, wetland, forest, or habitat for fish, game, or wildlife in Minnesota. Program provides competitive grants of up to $75,000 to nonprofit organizations, including governmental units. Projects must be located within the 7-county metro area, and the total project cost cap of $75,000. Round 1: September 24, 2018

Fish/SWIM Cooperative Wetlands Management Program Phase II Grant

Water Quantity

All States

Bureau of Reclamation

Federal

Program provides $550 million dollars to $1.5 billion dollars in wetland creation and retirement projects. GRANT: Will provide below market-rate, low-interest loans, principal-forgiveness or grants to local governments. Federal/Non-Federal: $5.7 million has been appropriated for this program. March, May or July 15, 2019

Disaster Mitigation

Water Quality

All States

FEMA

The goal of the IFDR grant program is to reduce overall risk to the population and critical facilities, water and other resources, allowing for additional funding through the Better Buildings, Better Communities, Better Environments (BBBEE) program. FEMA will then select eligible planning and grant applications that address the repair and reconstruction of critical facilities, water and other resources, allowing for additional funding through the Better Buildings, Better Communities, Better Environments (BBBEE) program. FEMA will then select eligible planning and grant applications that address the repair and reconstruction of critical facilities, water and other resources, allowing for additional funding through the BBBEE program.

Green Partners: Commercial Sector Recycling

Environment & Education

MN

Henrecip County

Non-Federal

The commercial sector recycler generates more than half of the total waste in Hennepin County. The program is designed to help businesses and organizations promote recycling and reduce the amount of waste sent to landfills. The program provides recycling services, education, and assistance to help businesses and organizations reduce the amount of waste sent to landfills.

Short Term Action Request Grants (STAR)

Environment & Education

Natural Resource/ Habitat Protection

MN

MN/ND

Non-Federal

The Short Term Action Request Grant Program is designed to help local governments and organizations respond to situations that require immediate attention. The grant program is designed to help local governments and organizations respond to situations that require immediate attention. The grant program is designed to help local governments and organizations respond to situations that require immediate attention.

Clean Water State Revolving Fund - Water Quality

Water Quality

MN

Public Facilities Authority (PFA) & MPCA

State/Local

The Clean Water State Revolving Fund (CWSRF) is established under the Federal Water Pollution Control Act, amended to provide low-interest loans and grants for the development and enforcement of water quality standards. The CWSRF is a revolving loan fund established to provide low-interest loans and grants for the development and enforcement of water quality standards.

Point Source Implementation Grant Program

Water Quality

MN

Public Facilities Authority (PFA) & MPCA

State/Local

The maximum grant is $2,500. One or more operating grants are awarded per site. The site must meet the minimum criteria for eligibility. The site must meet the minimum criteria for eligibility. The site must meet the minimum criteria for eligibility.

Community Conservation Partnership

Water Quality

MN

Dakota County Soil & Water District

Non-Federal

Projects are designed to reduce or eliminate pollution from urban, residential, and non-agricultural areas. Dakota County Soil & Water District can improve water quality by reducing the minimum criteria for eligibility. Projects are designed to reduce or eliminate pollution from urban, residential, and non-agricultural areas. Dakota County Soil & Water District can improve water quality by reducing the minimum criteria for eligibility. Projects are designed to reduce or eliminate pollution from urban, residential, and non-agricultural areas.

Environmental Initiative Program

Natural Resource/ Habitat Protection

CO, TX, WA

Laura Jane Mussel Fund

Non-Federal

The Environmental Initiative Program is designed to support public initiatives to improve habitat, reduce waste, and conserve resources in the state. The program is designed to support public initiatives to improve habitat, reduce waste, and conserve resources in the state. The program is designed to support public initiatives to improve habitat, reduce waste, and conserve resources in the state.
### Water Quality Improvement Grant Program

**Program:** Water Quality Improvement Grant Program
**State:** MN
**Type:** Non-Federal

Many types of projects are eligible for grant money. A few examples include: (1) constructing new or replacing deteriorated septic systems, (2) purchasing or installing wastewater treatment equipment, (3) implementing water conservation projects, or (4) addressing non-point source pollution (npsp) management, particularly projects on adjacent or near lakes, rivers, and wetlands. Projects to address water quality or quantity and compliance with state or federal regulations. Although only qualifying public water suppliers may apply for a source water protection competitive grant, they may use the funds to support the work of other parties.

- **Applicants:** Cities, counties, townships, and regional governmental bodies
- **Funding:** $500 to $10,000
- **Eligibility:** State and local governments, public water suppliers, associations of government, water boards, and other entities that meet the conditions required by this program
- **Website:** [http://www.state.mn.us/dnr/grants/water/](http://www.state.mn.us/dnr/grants/water/)

### Source Water Protection: Competitive Grant Program

**Program:** Source Water Protection: Competitive Grant Program
**State:** MN
**Type:** Non-Federal

Projects must involve protection of the high-quality public water supply from which the community obtained its water supply. Projects may involve protection of new and existing public water supplies. Projects must be implemented in non-federal areas.

- **Applicants:** Federal/Non-Federal
- **Funding:** $500 to $150,000
- **Eligibility:** Federal grant funds to support the development of a State Wildlife Action Plan (Plan) approved by the Director of the U.S. Fish and Wildlife Service. Planning activities must contribute directly to the development of a Plan. Proposals must include at least one of the eligible primary recreation facility categories or be approved as a water management area or as a project to increase and enhance outdoor recreation facilities. Eligible projects include: improving and expanding facilities, constructing additional facilities, and environmental improvements. Projects must support one or more of the eligible primary recreation facility categories. Projects must be implemented on private lands, including tribal lands or waters owned by non-Federal or non-State entities. Projects must advance our mission, promote biological diversity, and strategic plans inform the types of projects funded under this opportunity. Funding is generally limited to $25,000 to $200,000. The total amount of funding available is $250,000. No cost sharing or matching required.

### Competitive State Wildlife Grants Program

**Program:** Competitive State Wildlife Grants Program
**State:** MN
**Type:** All States

Federal grant funds for the development and implementation of programs for the benefit of wildlife and their habitats, including marine mammals and other marine vertebrates. Eligible activities include planning and conservation implementation.

- **Applicants:** Federal/Non-Federal
- **Funding:** Up to $200,000
- **Eligibility:** Eligible applicants include state, community, or territorial agencies. Award criteria: 1) the project must contribute directly to the development of a Plan, 2) projects must include at least one of the eligible primary recreation facility categories, or 3) projects to increase and enhance outdoor recreation facilities.
- **Website:** [https://www.co.carver.mn.us/departments/public-education-education/cost-share-program](https://www.co.carver.mn.us/departments/public-education-education/cost-share-program)

### Source Water Protection: Non-Federal Grant Program

**Program:** Source Water Protection: Non-Federal Grant Program
**State:** MN
**Type:** Non-Federal

In order to be eligible for grant funds, projects must support one or more of the eligible primary recreation facility categories or be approved as a water management area or as a project to increase and enhance outdoor recreation facilities. Projects must be implemented in non-federal areas. Projects must be implemented on private lands.

- **Applicants:** Federal/Non-Federal
- **Funding:** $500 to $150,000
- **Eligibility:** Federal/Non-Federal
- **Website:** [https://www.co.carver.mn.us/departments/public-education-education/cost-share-program](https://www.co.carver.mn.us/departments/public-education-education/cost-share-program)

### Federal Grant Programs

- **Flood Hazard Mitigation Grants:**
  - **Program:** Flood Hazard Mitigation Grants
  - **State:** MN
  - **Type:** Non-Federal
  - **Funding:** $10,000
  - **Eligibility:** Federal/Non-Federal
  - **Website:** [https://www.co.carver.mn.us/departments/public-education-education/cost-share-program](https://www.co.carver.mn.us/departments/public-education-education/cost-share-program)

- **Partners for Fish and Wildlife Program:**
  - **Program:** Partners for Fish and Wildlife Program
  - **State:** MN
  - **Type:** Federal
  - **Funding:** $75,000
  - **Eligibility:** Federal/Non-Federal
  - **Website:** [https://www.co.carver.mn.us/departments/public-education-education/cost-share-program](https://www.co.carver.mn.us/departments/public-education-education/cost-share-program)

The National Fish Habitat Action Plan is a national investment strategy to leverage federal and locally, regionally, and internationally to protect, restore, and enhance the nation’s fish and aquatic habitats through partnerships. Each partner will work toward the following objectives:

1. Expand the knowledge base for fish habitats and aquatic ecosystems
2. Identify and prioritize fish habitats and aquatic ecosystem improvements
3. Meet the regulatory and technical requirements for projects
4. Implement identified projects

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Environmental Quality Incentives Program

Water Quality

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Special Opportunity Grant Program

Water Quality

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Economic Development Assistance Program

Public Works

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Water & Waste Disposal Loan and Grant Program

Water/Wastewater

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Federal Aid Programs For State Of Minnesota Disaster Recovery

Water Quantity

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

State Clean Share Program

Water Quality

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Watershed Pollutant Load Monitoring Network

Water Quantity

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.

Washington Conservation District Water Quality Cost-Share

Water Quantity

Federal/Non-Federal

Eligible projects include those that:

- Foster fish habitat conservation
- Develop and implement effective management strategies
- Promote partnerships
- Foster education and outreach
- Leverage public and private funds

Applications are accepted on a rolling basis.
