BARR Grant Tracking Database - Updated August 28, 2019
Stewardship Grants help businesses or homeowners build projects on their property that prevent stormwater pollution. Public and private landowners are eligible for technical and financial assistance to install water quality improvement best management practices (BMPs). Specifically, the program funds BMPs that capture stormwater from roofs, decks, and paved parking lots, or other impervious surfaces. Projects include rain gardens, permeable pavers, and rain barrels to improve water quality by improving the ability of the soil to absorb and infiltrate water. The Capital Region Watershed District (CRWD) is eligible for grants.

Applications are accepted all year. For more information, please contact Andrew at andrew@capitolregionwd.org or 651-602-7883.

**Eligibility**

- Local governments
- Municipalities
- Soil and Water Conservation Districts
- Nonprofit organizations
- Emergency response agencies
- Private individuals
- Lake associations
- Irrigation districts
- Joint powers organizations composed of public agencies
- Nonprofit organizations that will serve as the lead sponsor for a project and will be responsible for the distribution of funds

- Matching funds are required.

**Deadline**

Applications are accepted all year.
