## NARRATIVE

Porta potty spill, they think it was tipped over. The location is adjacent to a creek. (between the Luse line trail and Bassett Creek)

Was reported by a citizen this morning. Unknown amount. Porta potty contained about 25 gallons and it's still mostly full so they don't think it spilled too much but they do know something came out because there was toilet paper on the ground. Ground is dry now, no pooling. This happened on a slope going down to the creek.

For clean up they are cleaning up any solids but because it's on the creek bank they aren't doing lime and wood chips. The porta potty will be staked down and it will eventually be secured to a concrete pad.
